

NERKELY WILLIAMS | Systems Engineer

+58 414-4881440 | Remote (Venezuela) | nerkelywilliams@gmail.com

PROFILE

Systems Engineer specializing in concurrent backend architecture and high-performance distributed systems. Proficient in Go (Golang), Clean Architecture, gRPC, REST APIs, and advanced relational databases (PostgreSQL). Experienced in non-blocking processing optimization, ACID transaction structuring, and scalable infrastructure design.

WORK EXPERIENCE

Full Stack Software Engineer | Servicio Social de Iglesias Aragua

Aug 2025 - Present

- Designed and implemented the backend architecture using Go (Golang) and PostgreSQL to manage >15,000 monthly medication records, structuring ACID transactions for bulk data ingestion that reduced complex query latency by 40% and guaranteed 99.9% inventory consistency, alongside integrating a role-based access control (RBAC) system with real-time concurrent auditability and traceability across multiple centers without bottlenecks.

Mar 2026- Jun 2026

Backend & Blockchain Engineer | Altrueer

- Architected and developed backend infrastructure in Go (Golang) with Clean Architecture and PostgreSQL (PostGIS), integrating services via gRPC/Protobuf and implementing a concurrent Indexer (Goroutines/Channels) for non-blocking Layer 1 (L1) event processing.

Oct 2025- Jan 2026

Web Developer | Centro Médico El Bosque

- Developed a multi-role medical web platform with real-time BI dashboards and WhatsApp API integration for appointment automation, achieving a 30% reduction in patient absenteeism and optimization of the clinical workflow.

EDUCATION

Instituto Universitario Politécnico Santiago Mariño
Systems Engineering

2020-2025

Universidad de Carabobo
Degree in Medicine

2019- 2026

TECHNICAL SKILLS

- Programming:** Go, TypeScript, JavaScript, HTML5, CSS3, Python
- Backend and Architecture:** REST APIs, gRPC, Protobuf, Clean Architecture, GORM
- Databases:** PostgreSQL PostGIS TimescaleDB Redis
- Cloud and DevOps:** Git, Render, SSL
- Specialties:** HealthTech · Process Automation · Software Architecture
- Languages:** Spanish (native), English B2
